INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES

Special Item No. 132-51 Information Technology Professional Services

Note: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

SPECIAL ITEM NUMBER 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

- FPDS Code D301 IT Facility Operation and Maintenance
- FPDS Code D302 IT Systems Development Services
- FPDS Code D306 IT Systems Analysis Services
- FPDS Code D307 Automated Information Systems Design and Integration Services
- FPDS Code D308 Programming Services
- FPDS Code D310 IT Backup and Security Services
- FPDS Code D311 IT Data Conversion Services
- FPDS Code D313 Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services
- FPDS Code D316 IT Network Management Services
- FPDS Code D317 Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)
- FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

Contract Number: GS35-021CA

Period Covered by Contract: October 14, 2014 through October 13, 2019

General Services Administration
Federal Acquisition Service

Pricelist current through Modification #_____, dated _____.

Products and ordering information in this Authorized Information Technology Schedule Pricelist are also available on the GSA Advantage! System (<http://www.gsaadvantage.gov>).

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is

performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007)

applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

- (a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- (b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
 - (1) The offeror;
 - (2) Subcontractors; and/or
 - (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

GSA Labor Category: IT Engineer II

Minimum/General Experience: Minimum of 4 years of configuring hardware and software applications. Responsible for regression testing, and determining the overall computing capacity of servers and peripherals.

Functionality / Responsibility: Supports fixing of problems within existing systems, design/implementation of new systems and enhancement of existing systems. Participates in analysis, design and new construction of next generation IT systems. Responsible for understanding the needs of the customers and the realities of commercially available IT products, and creating requirements that will allow implementation by the development team.

Minimum Education: Bachelor Degree and 4 years of relevant experience.

GSA Labor Category: IT Engineer III

Minimum/General Experience: Minimum of 6 years of configuring hardware and software applications. Responsible for regression testing, and determining the overall computing capacity of servers and peripherals.

Functionality / Responsibility: Supports fixing of problems within existing systems, design/implementation of new systems and enhancement of existing systems. Participates in analysis, design and new construction of next generation IT systems. Experience as a systems engineer on one or more IT platforms is preferred. Must have solid technical background with a focus on IT systems. Skill areas include telecommunications (ex. -TCP/IP, OIS/CMIP/X25), operating systems (ex. -Windows, NT, UNIX), database/DBMS (ex. -Oracle, Access, Sybase) and applications (ex. -Tivoli, Peoplesoft, etc.) are required. Familiarity with ITIL, SEI/CMM desirable.

Minimum Education: Bachelor Degree and 6 years of relevant experience.

GSA Labor Category: IT Engineer IV

Minimum/General Experience: Minimum of 8 years of configuring hardware and software applications. Responsible for regression testing, and determining the overall computing capacity of servers and peripherals.

Functionality / Responsibility: Manages fixing of problems within existing systems, design/implementation of new systems and enhancement of existing systems. Manages the analysis, design and new construction of next generation IT systems. Responsible for understanding the needs of the customers and the realities of commercially available IT products, and creating requirements that will allow implementation by the development team. Experience as a systems engineer on one or more IT platforms is preferred. Must have solid technical background with a focus on IT systems. Skill areas include telecommunications (ex. -TCP/IP, OIS/CMIP/X25), operating systems (ex. -Windows, NT, UNIX), database/DBMS (ex. -Oracle, Access, Sybase) and applications (ex. -Tivoli, Peoplesoft, etc.) are required. Familiarity with ITIL, SEI/CMM desirable.

Minimum Education: Bachelor Degree and 8 years of relevant experience.

GSA Labor Category: IT Expert V

Minimum/General Experience: Minimum of 12 years of experience in leadership positions such as direction of significant research and development efforts or managing programs requiring comprehensive and innovative technical solutions; and a proven record of having successfully effected applicable technology transfer is imperative.

Functionality / Responsibility: Demonstrate awareness of and sensitivity toward the trends, technologies, constraints and priorities regarding current and projected strategies. Provide strategic direction to revise/update the development of overarching operational strategy that will support technical, analytical, intelligence, and operational concerns, including the development of program specific strategies, design of system architectures based on operational intelligence and customer requirements. Responsible for updating concepts of operations, Infrastructure design and analysis and development of

user roles and responsibilities. Assist in the development update of supporting operational architecture requirements

Minimum Education: Bachelor Degree and 12 years of relevant experience.

GSA Labor Category: Principal Systems Architect

Minimum/General Experience: 16 years of experience in the design and development of Client Server and Web Enabled Corporate applications including network topology. Leadership experience such as direction of significant research and development efforts or managing programs requiring comprehensive and innovative technical solutions; and a proven record of having successfully effected applicable technology transfer Experience in Object Oriented tools and techniques, and data modeling skills using automated tools.

Functionality Responsibility: Strategic Planning, Data Modeling, Data Administration, Network Design.

The Principal Systems Architectural Expert will have primary responsibilities for the configuration, selection, acquisition, installation, and integration of hardware, system software, communications components, middleware, and development tools to support both the future business processes and the systems development environment. Candidate will also coordinate the activities of both technology product and service vendors and lead technical infrastructure design activities. Candidates will also be responsible for coordinating activities of other architects and the Configuration Manager.

Experience evaluating technologies in order to help establish use in the architecture solution set and marshal the resources of cross-functional technical teams to design and implement effective architecture solutions. Must also be capable of providing support, guidance and training to less senior personnel/other groups as to the capabilities and usage of equipment and technology evaluated.

The candidate should have a general understanding of methodology in use, a thorough understanding of the application framework in use, and a thorough understanding of the technologies in use, to include:

- Operating systems
- Web servers and browsers
- Application servers
- Network protocols
- Repository and database management systems
- Enterprise Application Integration Engines
- Transaction monitors
- Reliable messaging systems
- Object request brokers
- Related middleware

Minimum Education: Bachelor Degree and 16 of relevant experience.

GSA Labor Category: Subject Matter Expert V

Minimum/General Experience: Minimum of 14 years of experience in leadership positions such as direction of significant research and development efforts or managing programs requiring comprehensive and innovative technical solutions; and a proven record of having successfully effected applicable technology transfer is imperative.

Functionality / Responsibility: Develops requirements from a project's inception to its conclusion for a particular IT subject matter area (i.e., simple to complex systems). Assists other project members with analysis and evaluation and with the preparation of recommendations for system improvements, optimization, development, and/or maintenance efforts in the following specialties: information systems

architecture; networking; telecommunications; automation; communications protocols; risk management/electronic analysis; software; life-cycle management; software development methodologies; and modeling and simulation.

Minimum Education: Bachelor Degree and 14 years of relevant experience.

GSA Labor Category: Senior IT Deployment Technical Specialist IV

Minimum/General Experience: Minimum of 8 years of configuring hardware and software applications. Responsible for regression testing, and determining the overall computing capacity of servers and peripherals.

Functionality / Responsibility: Organizes and directs network installations on site surveys. Assesses and documents current site network configuration and user requirements. Designs and optimizes network topologies. Directs and leads preparation of engineering plans and site installation Technical Design Packages. Develops installation schedules. Mobilizes network installation team. Directs and leads preparation of drawings documenting configuration changes at each site. Prepares site installation and test reports. Coordinates post installation operations and maintenance support.

Minimum Education: Bachelor Degree and 8 years of relevant experience.

GSA Labor Category: Senior Systems Engineer III

Minimum/General Experience: Minimum of 6 years of configuring hardware and software applications. Responsible for regression testing, and determining the overall computing capacity of servers and peripherals.

Functionality / Responsibility: Provides identification/fixing of problems within existing systems, design/implementation of new systems and enhancement of existing systems. Participates in analysis, design and new construction of next generation IT systems. Responsible for understanding the needs of the customers and the realities of commercially available IT products, and creating requirements that will allow implementation by the development team. Experience as a systems engineer on one or more IT platforms is preferred. Must have solid technical background with a focus on IT systems. Skill areas include telecommunications (ex. -TCP/IP, OIS/CMIP/X25), operating systems (ex. -Windows, NT, UNIX), database/DBMS (ex. -Oracle, Access, Sybase) and applications (ex. -Tivoli, Peoplesoft, etc.) are required. Familiarity with ITIL, SEI/CMM desirable

Minimum Education: Bachelor Degree and 6 years of related experience

GSA Labor Category: Project Manager IV

Minimum/General Experience: Minimum of 10 years of managing IT projects, cost, schedule and performance.

Functionality / Responsibility: Serves as the project manager for a large, complex task order (or a group of task orders affecting the same common / standard / migration system) and shall assist the Program Manager in working with the Government Contracting Officer (CO), the task order-level TMs, Government management personnel and customer agency representatives. Under the guidance of the Program Manager, responsible for the overall management of the specific task order(s) and ensuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems.

Minimum Education: Bachelor Degree and 10 years of relevant experience.
